Senate, if not incompatible with the public interests, copies of the correspondence of Mr.
Barnard, late United States Minister in Prussia,

Barnard, late United States Minister in Prussia, with the United States Consul at Bremen, and of that Consul with the Government of Bremen, relative to the case of Conrad Schmidt, a naturalized citizen of the United States, arrested at Bremen, and detained there upon a requisition from the Government of Hanover, claiming Schmidt as a subject of that Kingdom.

Also, a copy of a letter addressed by Mr. Barnard, while Minister of the United States at Berlin, to his Majesty the King of Prussia, in October, 1852, on the subject of religious toleration, and of a despatch addressed by Mr. Barnard to the Department of State in reference thereto.

The bill was then postponed till to-morrow, and the Senate proceeded to the consideration of Executive business.

House of Representatives, April 10, 1854. The Speaker announced the first business in order to be the motion of Mr. Florence, made on Monday last, to suspend the rules, to enable him to present a resolution for the promotion of Commander Duncan R. Ingraham.

Mr. Florence, for the present, withdrew the

Mr. Dean asked leave to present a res fr. Dean asked leave to present a resolu-tion, which was read for information. It was to the effect that the position of the United States, with respect to the impending war in Europe, is that of a neutral; that the rights of our citizens abroad must be respected; that the right of search will not be tolerated; that "the flag protects the cargo;" and that the President be requested to communicate any correspondence between this and any of the correspondence between this and any of the Gererments of Europe on this subject. Mr. Walker objected to the presentation of

Mr. Dean moved the suspension of the rules; which was decided in the affirmativeyeas 103, nays.41.

Mr. Dean here explained that the resoluar. Doan here explained that the resolu-tions affirm our duty with respect to possible emergencies. He said the British ministers had, so far as understood, evaded meeting this sub-ject. He yet believed that our Government had of late been engaged in the discussion with that Government of the subjects presented in

the resolutions.

He said marine insurance had of late increased, and that a declaration of our principles by Congress, well supported, would be productive of good results.

Mr. Bocock said the proposition was one of great importance, and ought to be deliberately considered, if adopted at all. Such a proposition should come with authority from the Committee on Foreign Affairs. Both Houses should concern in it.

concur in it.

Mr. Bocock concluded by moving a reference to the Committee on Foreign Affairs; which was adopted by a decisive vote.

A communication was received from the Clerk of the House, asking permission to purchase from any persons certain scarce books ordered for the use of the members.

Mr. Faulkner presented a resolution conferring upon the Clerk the authority desired.

On motion of Mr. Haven, the communication and resolution were referred to the Committee on the Library.

At one o'clock, the House went into Committee of the Whole on the Deficiency bill.

Mr. McDonald arose and addressed the House on the Nebraska bill. He had voted against the reference to the Committee of the

against the reference to the Committee of the Whole. He was one of three, north of the Hudson who had so voted. He held in his hand resolutions from the Legislature of Maine, nand resolutions from the Legislature of Maine, not requiring, but requesting that he should oppose the bill. Ordinarily he would bow with great respect to so respectable a body; but he will publish to the country that the Legislature of Maine, as now constituted, did not merit his consideration.

lt was arrogance in it to attempt to instruct er request a representative here to observe its will. He told how that Legislature had been elected, how a Governor had been elected, and how an ism, called a temperance party, had ac-quired an influence there. He said one branch of that Legislature had violated the rights of forty thousand voters in the election of Gov-

Mr. McDonald denounced Whigs, Abolitionis's, and Free-Soilers, and a coalition of all of them; and entered into an elaborate analysis of all these elements, together with many others, incidentally of Universalism itself, as it is represented in the person of the Maine editor of the New York Tribune. Abolition lecturers he described as a reverend, tricky, pedantic, merry-Andrew sort of persons, forever agitating and exciting the community—a set of people of surpassing effrontery, and really of surpassing ignorance.

Mr. McDonald finally spoke of the bill as meriting his approval, because it contained the principle of the right of the people to govern themselves—the principle of popular sowgreignty. He dilated upon this topic, affirming that it was of paramount importance. It was so in the States and not less so in the Territories. In 1850 our Government had inaugurated

The City Election —The result of the elec-tion on Monday, for Mayor and municipal offi-cers, was a complete and overwhelming tri-umph of the Benton Democrats over the con-federated Whigs and Nullifiers, and demon-strates that the Democrats can elect their legislative ticket next August friendly to the election of Col. Benton to the United States Senate. It demonstrates the ability of the Democrate to elect nincteen Senators and Representatives to the next Legislature by fifteen resentatives to the next Legislature by fifteen hundred majority, for the county outside of the city can give four hundred majority, which, added to the 1,100 Democratic majority in the city, will give in round numbers fifteen hundred Benton Democratic majority next August. Let the Democracy in the State think of this, and rally to the support of our glorious old Senator. If the counties in the interior do as well as they did in 1850, Benton's election is certain. We all feel and know that they can and will, and therefore we consider it a fixed fact that the next August election will seal the fate of the Nullifiers and restore Benton to the seat of the Nullifiers, and restore Benton to the seat from which he was sold by the coalition of 1850. Three cheers for the unterrified Ben-tonians of St. Louis! We hope that this result will cheer the Democracy to redoubled efforts in the campaign which is about to open, and which is to decide issues vital to the interests of Missouri .- Missouri Democrat.

City Postmaster.—A rumor has been in circulation for some days, which on yesterday assumed a more definite character, relative to the appointment of Postmaster, in this city. It is said that a Mr. Armstrong has received the appointment. The credibility of the rumor is much affected by the fact, that his appointment would display an intention, on the part of Mr. Pierce and Mr. Campbell, to outrage and insult the Democracy of St. Louis. It is affirmed that the individual to whom rumor has assigned the long-suspended office, tore the Democratic ticket, yesterday, on the public streets, and vilified and abused the gentlemen whose names constituted it. It was said, in Mr. Cass submitted resolutions directing an inquiry as to the expediency of constructing a custom-house and marine hospital at Detroit, Michigan; and also as to increasing the mail facilities of the Upper Peninsula of Michigan; which resolutions were adopted.

Mr. Mason gave notice of a bill allowing the Baltimore and Ohio Railroad Company to Attend their road to the Potomac river, at a point near the city of Washington.

Mr. Badger introduced a bill extending to the Democracy of St. Louis View and affirmations in certain cases.

On motion of Mr. Gwin, the Senate proceeded to the construction of a railroad to the Paoific.

Mr. Gwin read a speech in support of the bill. He pointed out the great benefits to result from it, in social, commercial, political, and military points of view.

The bill was then provisioned till to morrow.

The selection, we take it, defines the position of the President, the Cabinet, and the Senate. Mr. Benton claimed the appointment as a matter of right. Ordinarily, we presume, this would have been accorded to him; but the Administration could not trust him and they have ninistration could not trust him, and they have cast him off, and now we shall see where he stands. The people of this State, too, will know where he stands, and will be satisfied of the absurdity of attempting to sustain a man who has no influence either with the President or the Senate or the House."

### MEDICAL TESTIMONY CANNOT BE CONTRO-VERTED. -

One of the most startling cases is narrated of Dr. McLane's Vermifuge, by Dr. John Butler, of Lowell, Trumbuli county, Ohio. The case was that of a young lady, who had been very sick for eight years, and had consulted a number of physicians, who had treated it as one of Prolapsus Uteri. Dr. Butler was then called in, and for a time believed with his predecessors that it was a case of Prolapsus. He was, however, soon forced to the conclusion that his patent was suffering from worms, and, after much persuasion, prevailed upon her to take two deses of Dr. McLane's Vermifuge. This medicine had the effect of removing from her a countless number of the largest size. After she passed them, her health immediately returned. She is since married, and contin ues to enjoy excellent health.

Purchasers will please be careful to ask fo DR. McLANE'S CELEBRATED VERMIFUGE, and take none else. All other Vermifuges, in comparison, are worthless. Dr. McLane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States and Canada.

LITTELL'S LIVING AGE-1854.

A beautiful Engraving in each Number.

The LIVING AGE has been abundantly honored by the approbation of the best judges; it has been pronounced to be sound and vigorous; various and entertaining; full of spirit and life; uniting the qualities which gratify the scholar, the philosopher, and the man of basiness, with those which recommend it to their wives and children. We shall now endeavor to add to these intrinsic excellences the greater attractions of Art, and, beginning with 1854, Every Number will contain an Impression from Every Number will contain an Impression from a beautiful Steel Plate.
The 52 Plates a year will alone be worth the price

of subscription.

This work is made up of the elaborate and stately essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on poetry, his keen political commentaries, highly wrought tales, and vivid descriptions of rural and mountain scenery; and the contributions to literature, history, and common life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenarum, the busy and industrious Literary Gazette, the sensible and comprehensive Britannia, the sober and respect able Christian Observer; these are intermixed with the military and naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Froser's, Tait's, Ainswooth's, Hood's, and Specting Magazines, and of Chasabers' admirable Journal. We do not consider it beneath our dignity to borrow wit and wisdom from Panch, and, when we think it good enough, make use of the thunder of The Times. We shall increase our variety by importations from the continent of Europe, and from the new growth of the British colonies.

THE LIVING AGE is published every Saturday, by LITTELL, SON, & COMPANY, corner of Tremont and Bromfield streets, Boston. Price 12; contra number, or six dollars a year in advance. Remit tances for any period will be thankfully received and promptly attended to.

POSTAGE FREE.

We will send the Living Age, postage free, to all subscribers within the United States who remit in advance, directly to the office of publication, the sum of six dollars; thus placing our distant subscribers on the same footing as those nearer to us, and making the whole country, our neighborhood.

NEW YORK CENTRAL COLLEGE. ocated in the village of McGrawville in the county of Cortland New York, was founded in 1849, upon

the broad principles of "Equal Bights and Christian Reform," and is open to all persons of both sexes, of good moral character. IT has been the purpose of the Trustees of this School, from the first, to make it both safe and inviting to Students; and we believe we may now safely recommend it, under the supervision and care of President Leonard G. Calkins, whose ability for

that responsible office has been most happily tested, assisted by a competent "Board of Instruction." Free from the unboly influence of larger towns, and per vaded by moral influences, republican habits, and Christian example, associated with manual labor, we think parents must feel a degree of security, begotten by no other set of circumstances.

One arrangement in this Institution, not to be overlooked in this day of "public speaking," is a Rhetorical Class, with deily exercises in extemporaneous speaking, under the careful training of the President. The student of small means, aspiring to a thorough intellectual education by his own energies, will find in this College sympathy and aid in his arduous and noble work.

The Manual Labor Department of the School is under the supervision of Mr. Luther Wellington, a practical farmer, a kind and benevolent man, on a farm of one hundred and fifty-seven acres.
